# GeTS ACE/ACI eManifest

Highway Solutions Simplified

## What is It?

Global eTrade Services (GeTS) is a certified service provider for **US Single Window Automated Commercial Environment (ACE) and Canadas Advance Commercial Information (ACI) Program**. While the government ACE and ACI portals provide basic functions for creating and submitting eManifests, GeTS ACE/ACI eManifest offer more customization and integration options, eliminating manual data entry for each crossing.

## How It Works?

### System Features

The GeTS ACE/ACI eManifest allows users to easily upload their shipment and driver information in pre-defined templates, saving valuable time and reducing errors.

Users have the visibility to view and track responses from Customs directly via their smart phones using the GeTS mobile app. Alternatively, shipment milestones alerts can also be sent via email and SMS notifications.

Users can print both Trip Receipts and Inward Cargo Manifests (7533) for each trip entered into the system. To minimize date re-entry, all users past and present shipment details are stored in the GeTS portal to enable data reuse in the future.

## Benefits

<b>No Setup Fees</b>	<b>Free Trial</b>
Enjoy services without license fees, set-up fees, or training fees	30-day no obligation free trial and no contract terms
<b>Data Storage</b>	<b>eManifest Filing Service</b>
Unlimited database storage for trucks, trailers, drivers and trade partners to facilitate automatic data population	Outsourced processing is available 24/7 including public holidays
<b>Auto-fill Templates</b>	<b>Offline Notifications</b>
Template features minimize the re-keying of repetitive data	Real-time notification alerts for all eManifest responses via email and SMS
<b>Fully web-based</b>	<b>Customer Support</b>
Requires no buying or installing of software	24/7 customer support via email, phone or live webchat

## Who Should Use It

The GeTS ACE/ACI eManifest is the best choice for highway carriers (large and small) as they can select suitable monthly payment plans that match their shipment volumes. It is also a great option for **Customs Brokers, Freight Brokers and Transportation Management System (TMS) Providers**.

## Integration Option

Users have the option to integrate their in-house dispatch systems with GeTS ACE/ACI eManifest to achieve seamless data transfer with Customs (using GeTS ACE/ACI easy to understand XML API and common connectivity options, such as web services of Secure File Transfer Protocol).

Each XML file is carefully validated before sending to Customs. Responses from Customs are translated back to XML for easy integration into in-house dispatch systems.

Integrated users can check eManifests conveniently from home or on the road as they have the option to work from their dispatch systems or login to the GeTS web-based system to see the same records.

## Fax and Email Submission Options

The GeTS ACE/ACI eManifest also caters to users who are accustomed to fax and email submissions. Users can use the eManifest Filing service where shipment data is faxed to the GeTS center for processing before submission to Customs.

Likewise, data in PDF documents can also be populated into GeTS web account and sent directly to Customs; an ideal option for users with after hours shipments or simply for backup purposes.

## GeTS

**Global eTrade Services (GeTS)** is a CrimsonLogic subsidiary and a key growth engine for the Group. GeTS has a comprehensive suite of global trade connectivity services that helps traders meet regulatory and compliance requirements from Government agencies and trade associations around the world. Based on a SaaS model, GeTS is centred on a global trade platform that facilitates cross-border trade with Compliance Connectivity, eAdvisory and Data Analytics suite of services.
