Prior Notice
(PN)**

Food and Drug Administration (FDA) Prior Notice (PN)

What is it?

Traders are required to send the Prior Notice (PN) electronically to the U.S. Food and Drug Administration (FDA) before food is imported into the United States. The Prior Notice (PN) requirement applies to the import of food (for both human and animal consumption) into/through the United States. This includes individuals, manufacturers, exporters, brokers, importers, and agents.

Time requirements are based on the mode of transportation, for example if the shipment is arriving via air or rail then filer is required to submit FDA PN 4 hours before arriving at the port. The PN of imported food shipments will help FDA to increase public safety by reviewing and evaluating the information in advance.

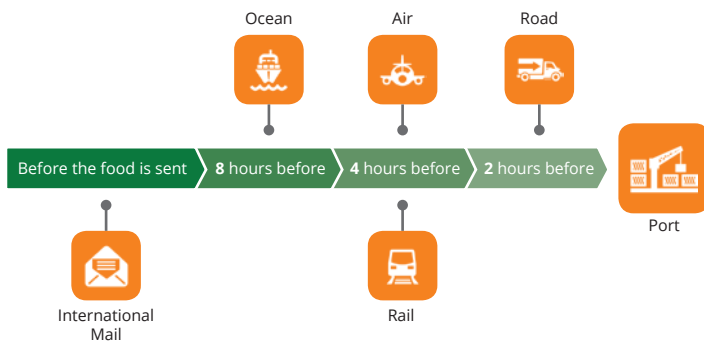

How it works?

GeTS Food and Drug Administration (FDA) Prior Notice (PN) is a web-based solution designed to streamline the submission of Prior Notice through a specially designed user interface for easy work flow.

Users have the visibility to view and track the responses from FDA directly. Alternatively, shipment milestones alerts can also be sent via email and SMS notifications. Users can also track the status updates using GeTS Mobile App.

For greater time savings, users can upload their shipment data easily or integrate their Enterprise Resource Planning (ERP) systems with GeTS FDA PN.

Mode Specific Requirements

Who should use it?

Benefits

24/7 CUSTOMER SUPPORT On demand access to support for all devices	REPORT GENERATION Data reporting exported to spreadsheet for internal audit, records keeping and management purposes
OFFLINE NOTIFICATIONS Receive email and SMS alerts on key filing events	AUTO-FILL TEMPLATES Numerous in-app functionality for valuable time savings
DATA RETENTION Comply with Customs Act records keeping regulations	DATA VALIDATION automatically validates the data to ensure high standard of accuracy

Subscription Options

WEB

The GeTS FDA PN Web-based filing is designed with the end user in mind. Users can enter compliant entry summary details quickly and easily without missing any mandatory fields with our highlighted entry fields. Receive status notifications and produce the supporting documentation easily. The real-time 'Dashboard Status Report' and CBP Notifications (SMS/email) can be tailored to meet a filer's unique requirements anytime.

FAX2US eMANIFEST PROCESSING

The FAX2US solution is a program for trade participants who may need after-hours or holiday support. Simply fax or email your paperwork to our 24/7 FDA PN processing facility and we will prepare and submit the FDA PN to CBP. This is also an ideal option for filers that need a simple backup system in place.

INTEGRATION

If operating with an in-house or 3rd party software, we offer data integration that can seamlessly transfer FDA PN submissions and responses directly to customs. Users who wish to reduce time spent online and minimize errors can rely on GeTS FDA PN XML integrated Enterprise. GeTS will work with your IT so that filers don't have to rekey the same data across different applications. This is made possible with industry standard real-time messaging.

GeTS

Global eTrade Services (GeTS) is a CrimsonLogic subsidiary and a key growth engine for the Group. GeTS has a comprehensive suite of global trade connectivity services that helps traders meet regulatory and compliance requirements from Government agencies and trade associations around the world. Based on a SaaS model, GeTS is centred on a global trade platform that facilitates cross-border trade with Compliance Connectivity, eAdvisory and Data Analytics suite of services.
