eHBL

eHBL

What is eHBL?

ACI eManifest House Bill (eHBL) is a requirement for Canadian freight forwarders to submit house-level Bill of Lading data to the Canada Border Services Agency (CBSA). The program eliminates paper-based house bill reporting and replaces legacy ACI supplementary data submitted to the CBSA. Global eTrade Services (GeTS) is proud to offer you best-in-class solutions to enable efficient and accurate compliance with the eHBL regulations.

How does it work?

How Does it Work?

CARRIER	Conveyance Arrival Message → Conveyance Report; Cargo Report (CCN-A), Cargo Report (CCN-B), Cargo Report (CCN-C)	Carrier submits ACI Conveyance & Cargo	
		Freight Forwarders submit consolidated & back-to-back House Bills	
FREIGHT FORWARDER	eHBL Close Message → House Bill (eHBL-A), House Bill (eHBL-B); eHBL Close Message → House Bill (eHBL-X)	Freight Forwarders submit Close Messages on House Bills	
		Co-loading Forwarder submits House Bills under consolidated eHBL-A & eHBL-B	
SUB-FORWARDER	eHBL Close Message → House Bill (eHBL-Y), House Bill (eHBL-Z)	Co-loading Forwarder submits Close Message for eHBL-Y & eHBL-Z	
		Carrier (or CBSA Officer in Hwy mode) submits Conveyance Arrival Certification Message	

Time Frames

Marine	24 hours prior to loading container or prior to arrival, cargo type & origin dependent
Air	4 hours prior to arrival in Canada or at "wheels up" on shorter lights
Rail	2 hours prior to arrival in Canada
Highway	1 hour prior to arrival in Canada

How does it work?

Canadian Freight Forwarders who hold an 8,000 series freight forwarder code issued by the CBSA

Benefits

Secure Corporate Account	**24/7 Customer Support**
Securely file and amend eHBL electronically	On demand access to support for all services

Multiple Plans & Connectivity Options	**Offline Notifications**
Flexible service options and features suited to business needs	Received status email and SMS alerts on key filing events

Report Generation Capabilities	**User Roles Management**
Data reporting for records keeping and management purposes	Data reporting for records keeping and management purposes

Advanced Integration Options	**Master eHBL Grouping**
Save time and money by filing directly to CBSA	Reduced eHBL dataentry and simplified Close Message filing

Subscription options

WEB

Many enhanced features on the web account are available to ease your data entry, such as CSV upload feature and a customized data master. Email or SMS alerts for responses received from CBSA are communicated directly to the filer and other team members in the organization

eHBL FILING SERVICE

The BPO solution is a program for filers who may need after-hours or holiday support. Simply fax or email your paperwork to our 24/7 ACE processing facility and we will prepare and submit the eHBL data to CBP.

INTEGRATION

If operating with an in-house or 3rd party software, we offer data integration that can seamlessly transfer Airway Bill submissions and responses directly to CBSA. GeTS will work with your IT so that filers don't have to re-key the same data across different applications
