GeTS

H2H eDeclaration Service for CFZ DMCE
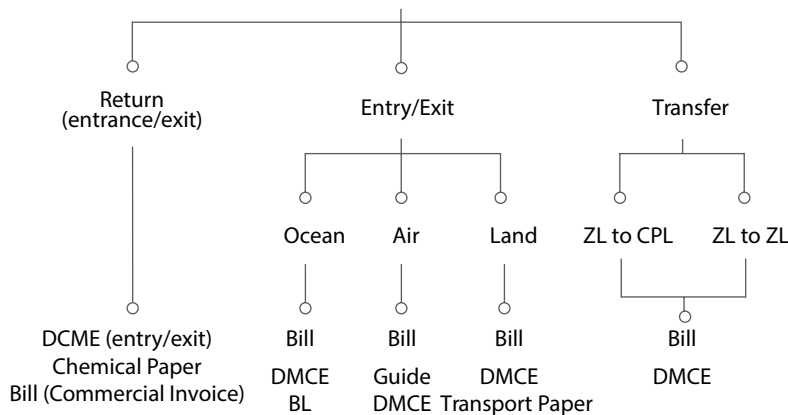

Panama

Panama
GeTS H2H eDeclaration Service for CFZ DMCE

What Is It?

The implementation of the Electronic Commercial Movement Declaration System (DMCE) by Colon Free Zone (CFZ) Administration was set in place to improve trade facilitation and distribution in Panama. Before any cargo can arrive or depart from CFZ Gates, the CFZ Administration will need this information to examine all cargo and take proper inventory in CFZ warehouses.

How Does It Work?

GeTS H2H eDeclaration Service for CFZ DMCE allows CFZ companies to seamlessly submit declarations and forms right from your proprietary in-house or third-party software into the CFZ DMCE System, eliminating redundant keying for recurring data. With GeTS H2H eDeclaration Service for CFZ DMCE , you'll file faster and more accurately, reducing delays and maintaining 360-degree view of the movement of goods within the free zone.
